

Private Pilot Ground School

An intensive 16 week course, 2.5 hours each night, (Tuesdays, 5:30pm to 8pm) covering the materials presented in the ASA Pilot's Manual Ground School book. At the conclusion of the course you will be prepared to take the FAA Written Knowledge exam and should have the the majority of the knowledge outlined in the airmen certification standards! Pilotsmith's ground school is designed to save students money on one-on-one instruction by providing a classroom setting to cover many, but not all, of the items that would be covered by an instructor one-on-one.

There is a fee for this course and pre-registration is mandatory. See www.pilotsmith.com and click the link on the homepage for more information.

Directions: Located inside the Jet Air Group building. Call 920-415-2359 x101 for directions.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
